

# How To Care For and Love

# our Pets

## My Coloring Book

Dear Parent,

Animals Deserve Better is pleased to provide your child with this coloring book. The book has been developed to help people understand the importance of what Animals Deserve Better calls an "Animal Awareness" of Pet Ownership.

Pet companion ownership is a lifelong responsibility but a pet's love brings many rewards. Your pet can be your or your child's non-judgmental comrade.

Pet companion ownership brings with it your promise to provide total health care throughout your pet's life. You or your child can learn much about responsibility by sharing in the care of your pet.

Pet companions desire and thrive on attention and praise and give back their love and attention in return.

Caring for a pet companion can help to teach you and your child compassion for all living creatures.

The book has been designed for fun and learning. We encourage you to read the book with your child as he or she colors their way to "Animal Awareness".
